

Lara shares her thoughts on the Trust wide Leading Active Learning programme.

What areas of the school's work are you helping to develop through this programme and why?

I chose pupil voice through the school council. I am a cover supervisor at Pakefield primary school and cover in Nursery to year 6. I thoroughly enjoy my role and getting to know all of the pupils within the school.

Over the past 2 years I have supported the school council and seen it grow. This year I collected and collated data from the previous school council members and this highlighted the need for change.

Through the Leading Active Learning leadership course I have received support, encouragement, and have been able to facilitate the development of the new school council.

What about the LAL programme do you enjoy the most?

I have really enjoyed the cluster group sessions sharing common areas of interest. It is particularly interesting talking to and sharing experiences with colleagues from other ALT schools. I have learnt so much about different leadership styles and found it beneficial in my own practice.

What do you feel being part of the programme is making the difference to your work at the school?

My confidence has grown; I am now actively building professional relationships with colleagues.

I have a more reflective view now on my role and how I support within the school.

The programme has helped me achieve and progress with positive outcomes for the whole school.
